

What Does Verification Mean?

Verification is the process used to check the accuracy of information submitted by students on their financial aid application. The Federal Processor chooses student applications for verification at random through computer edits. Thirty percent of all applications are selected for verification. In addition, the Financial Aid Office at Northcentral Technical College selects students for verification when inconsistent information is found.

The U.S. Department of Education requires that colleges check the accuracy of the information that you provided on the 2008-09 Free Application for Federal Student Aid (FAFSA) or the Renewal Application. We must verify this information before you are

awarded financial aid. If there are differences between your FAFSA and this information (including your federal tax return), we will update your application and recalculate your eligibility. Please complete this form, attach the appropriate documentation, and return it to the Financial Aid Office as soon as possible.
