

Cost Of Attendance

The Financial Aid 2019-2020 Cost of Attendance (COA) is an estimate of the expenses you can expect to have while attending Northcentral Technical College. The COA is based on average expenses that are typical in the Northcentral Technical College district. It does not represent every expense that you might incur during the year, but it is a useful estimate for figuring out your budget for NTC.

The amounts listed below are intended to help in planning your own budget, but your actual expenses will vary depending on your individual lifestyle. The total amount of financial aid that you receive cannot exceed this COA budget. Your financial aid (i.e. grants, loans, scholarships) may be adjusted to keep you within your budget. You can use our [Net Price Calculator](#) to help estimate your college costs.
